They serve a variety of purposes but none of them can be used together and they conflict with many other mods because they are so big that they really need to be installed.. This was used to make the game itself SPERG corrects both by adjusting the skill level adding a variety of sources of skill growth to some of the more difficult skills and complete overhaul of the bonus trees.. I have some CTDs after use but I think that 0 was not related except SPIKE esm which was placed before Update.
